## WHAT WE DO

### How does IPW protect my personal information?
To protect your personal information from unauthorized access and use, we use security measures that comply with federal law. These measures include computer safeguards and secured files and buildings.

Access to personal information is granted to our home-office associates and investment advisory representatives only to provide investments and services to customers or to serve another legitimate business need.

### How does IPW collect my personal information?
We collect your personal information, for example, when you
- Open an account or give us your contact information
- Seek advice about your investments or tell us about your investment or retirement portfolio
- Enter into an investment advisory contract
- Direct us to buy or sell your securities

We also collect your personal information from others, such as credit bureaus, affiliates, or other companies.
### Why can’t I limit all sharing?

Federal law gives you the right to limit only:
- Sharing for affiliates’ everyday business purposes – information about your creditworthiness
- Affiliates from using your information to market to you
- Sharing for nonaffiliates to market to you

State laws and individual companies may give you additional rights to limit sharing.

### What happens when I limit sharing for an account I hold jointly with someone else?

Your choices will apply to everyone on your account.
